New Coronavirus BAG Switzerland

People arriving in Switzerland from certain countries and areas are required to go into quarantine. The list of these countries you will find on the following link;

➢ **www.bag.admin.ch**

Criteria for the list

The new infections per 100 000 inhabitants over the past 14 days are examined to determine whether a country or an area has an increased risk of infection, If the incidence in a country is **at least 60 higher than the incidence in Switzerland**, the country will be added to the list.

Since the epidemiological situation is constantly changing, this list is **regularly updated** to take account of the current incidences. **Areas bordering on Switzerland** can be exempted from inclusion on the list despite a corresponding incidence of the new coronavirus.

A negative test result does not exempt you from the mandatory quarantine requirement.

What to do after entering Switzerland

✓ Upon arrival, go immediately to your home or to other suitable accommodation. On the way there, keep a minimum distance of 1.5 metres from other people and wear a mask. Avoid public transport if possible.

✓ Report your arrival to the cantonal authority responsible **within two days**. Follow the instructions of the cantonal authority.

✓ For **10 days** after your arrival in Switzerland you must stay in your home or other suitable accommodation without going out. Avoid contact with other people and follow the BAG website.

▪ Anyone who fails to comply with the quarantine requirement or the duty to report to the authorities is committing an offence under the Epidemics Act which can be punished by a fine of up to CHF 10'000.-

Infoline for persons entering Switzerland: **+41 58 464 44 88** (daily from 6am to 11pm).

Refund policy

According to the daily changes of numbers of infections worldwide, there are **no refunds for cancelation behalf of the Covid-situation.**
